Set a time period for Arthur to turn on and off at random times.

Automate

Set a time period for Arthur to automatically turn off each time.

Energy Monitoring

Click 'Energy' on the bottom navigation bar. Here you can monitor real-time and historical energy consumption.

Energy Monitoring

Energy Statistics

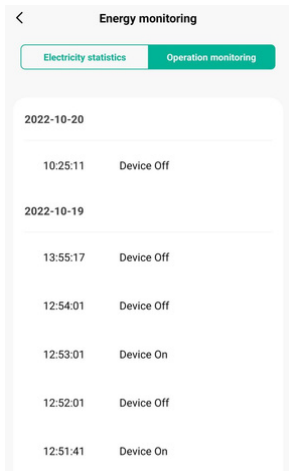

Monitor your energy consumption in real-time.

Also see consumption trends over a period of time using historical data.

Operation Monitoring

Check the status of your Arthur socket over a period of time.

Reset Arthur

If you are having trouble connecting to Arthur, you may need to do a reset.

How to reset Arthur

Press and hold down the power button at the front of the socket.

The LED will begin flashing green when it is ready for setup.
