Welcome

Olivia's your eyes and ears at home, wherever you are. You can check in with her any time and she'll also let you know instantly when she hears a sound or sees anything move. And because she can store up to 900 hours of recordings, you should never miss anything. Let Olivia help you look after babies, pets and loves ones.

This user manual has all the information you need to make the most out of Olivia. Please read all instructions carefully before use.

Please keep this manual for future reference and ensure all safety

instructions have been read carefully before using. Applications and their functions may vary by country and/or hardware specification.

The design and features are subject to change without notice.

Welcome to Clan

Time2 home security wifi cameras and smart appliances are part of Clan - a growing family of clever, affordable devices.

Clan devices work alone or together to make your life easier. You can manage them all on your smartphone or tablet with the free Clan at home app. Clan also enables Time2 smart home appliances to work with Alexa and Google Home.

With Time2 and Clan, the home is a lot smarter, for less.

Safety Information

Do not install Sophia outdoors or in any place where it may become wet.

Do not install Olivia in any place that might be exposed to extreme heat or cold - Olivia should be kept out of direct sunlight.

It is not permitted to open Olivia yourself or to have it opened, neither is it permitted to repair Olivia yourself or to have it repaired. This will void the warranty.

Only use the original accessories from the manufacturer.

Disconnect Olivia from all power sources before cleaning it. Use a clean, dry cloth to clean the product.

Do not use any abrasive agents, corrosive cleaning products or any substances that contain bleach or solvents to clean Olivia.

We do not recommend facing Olivia towards a window. The glare of the window may cause complications with the motion detection.

Before setup of Olivia, please note the following requirements:

Olivia can only be setup on a router that supports a 2.4GHz Wireless Router. If your Router supports both 2.4GHz and 5GHz bandwidths, please close the 5GHz connection.

The WIFI Router name and password should not contain special characters such as @ # \$ and should be less than 20 characters

We highly recommend the purchase of a Micro SD Card. This will allow you to record and playback footage recorded on Olivia. The maximum size that can be used is 128GB.

Sharing Olivia

You have the ability to share your Clan devices with your friends and family so they can view them too.

Sharing the device only gives access to the live feed but not the settings. If you wish to share all settings go to Home Management below. **(Page 7)**

1. Ask your family member to complete the following

Step 1

Download the Clan at home app on the phone you wish to to share it to and create an account

Step 2

Click on your account

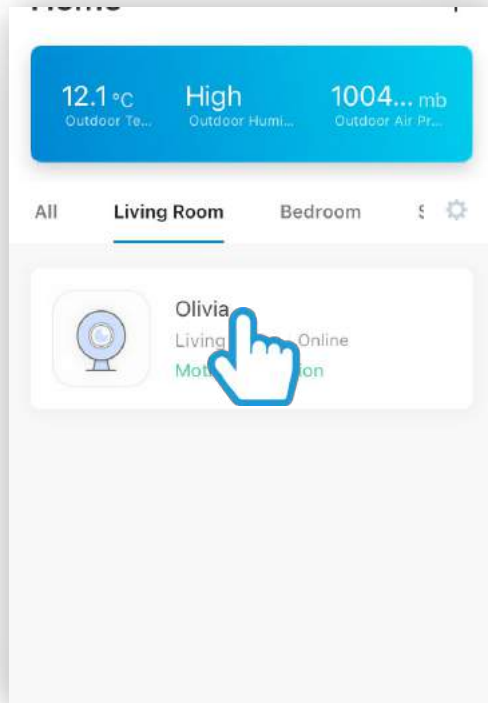

Step 3

Locate the Account mobile number / email

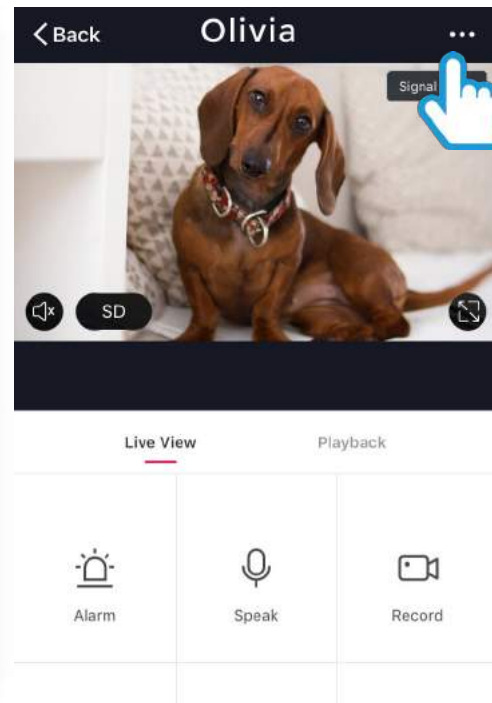

Sharing Olivia

2. On your Clan app

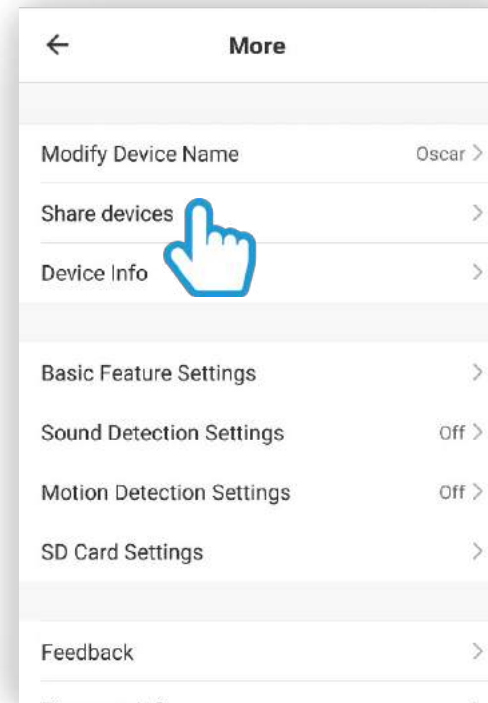

Step 1

Click on Olivia

Step 2

Select the (...) top right of screen for Sophia

Step 3

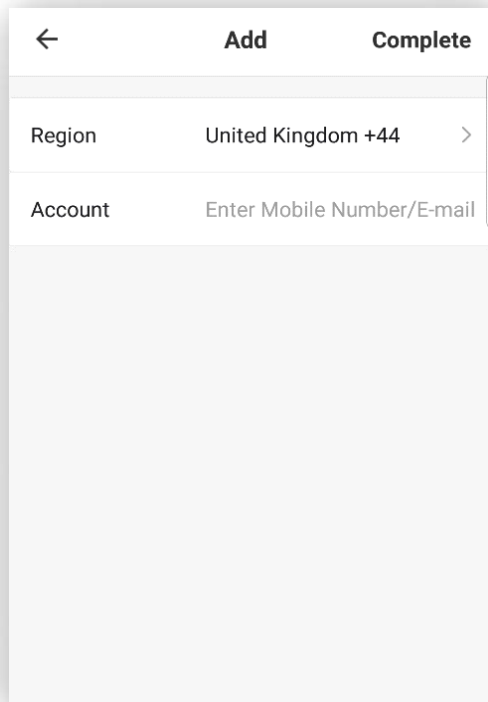

Click Share Devices

Step 4

Click Add

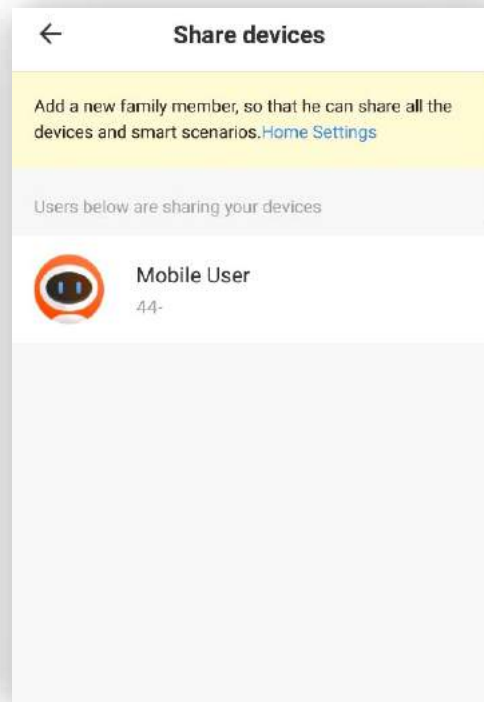

Sharing Olivia

Step 5

Enter Mobile Number/Email address used to create the account.

Click Complete to share Olivia.

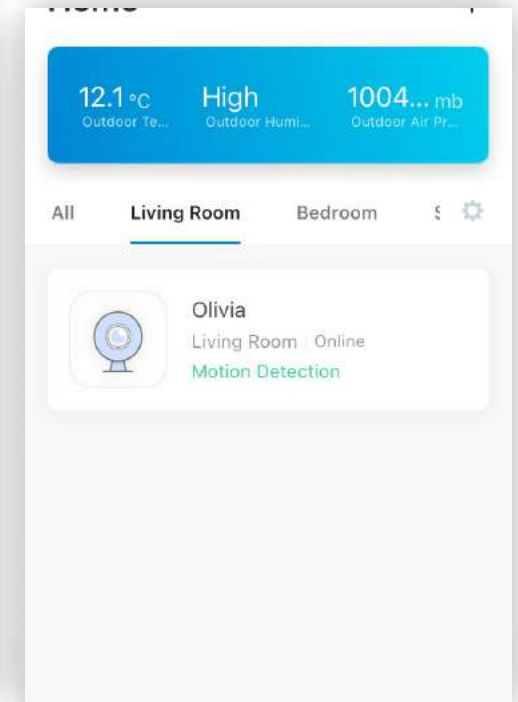

Step 6

It will now appear as a Shared device.

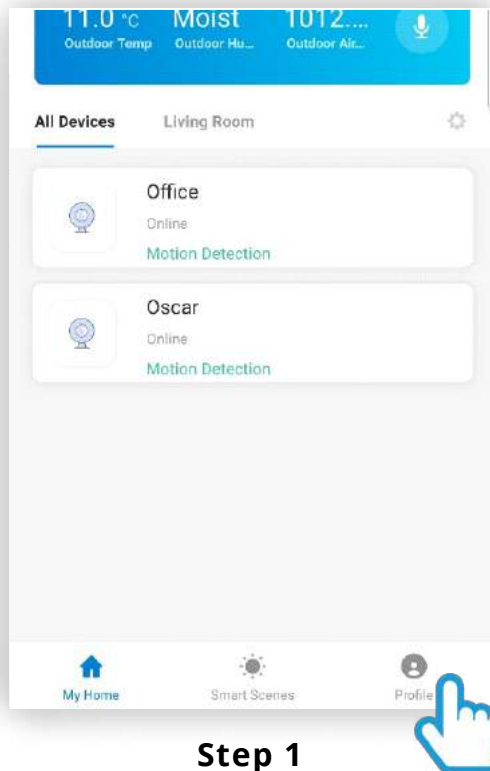

On the phone it has been shared to a notification will be received.

Olivia will now appear under shared devices on their Clan app.

Home Management

Do you want to share all your Clan devices with a family member? To do this, add them to your home. Please ensure they have completed the steps on page 4.

Step 1

Click on Profile on the bottom right of screen

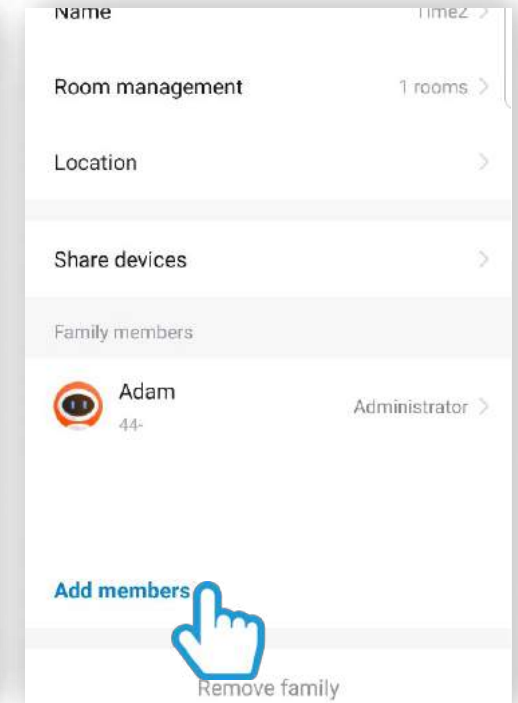

Step 2

Click on Home Management

Step 3

Click on the home you wish to add the member to

Step 4

Click on Add members

Home Management

Step 5

Enter the account information. To add the new member, Click Add to.

If you set them as an administrator they will be able to add other people to the home.

If you do not wish for them to have this permission simply ensure this option is turned off.

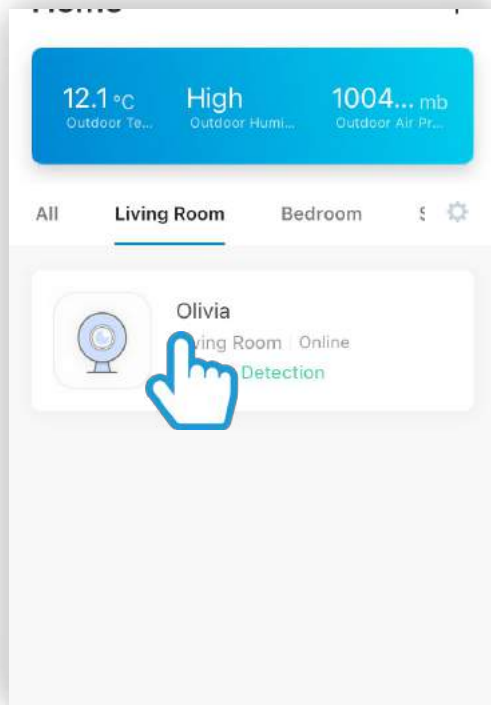

Step 6

The new member will appear under the Home Settings.

All the Clan devices will now appear on their Clan at home app.

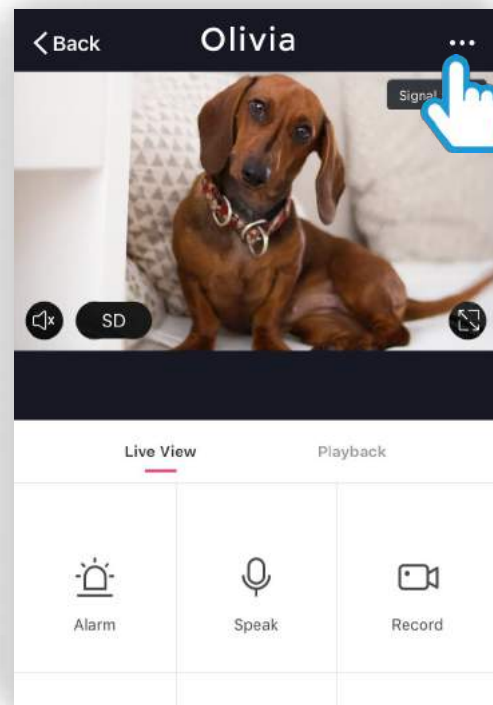

Motion and Sound detection

Olivia can be set to detect motion and sound which will send you an instant alert to your phone.

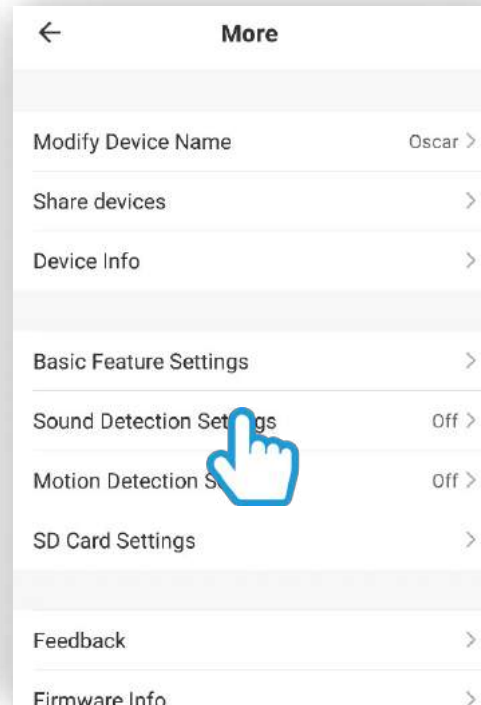

Step 1

Click on Olivia.

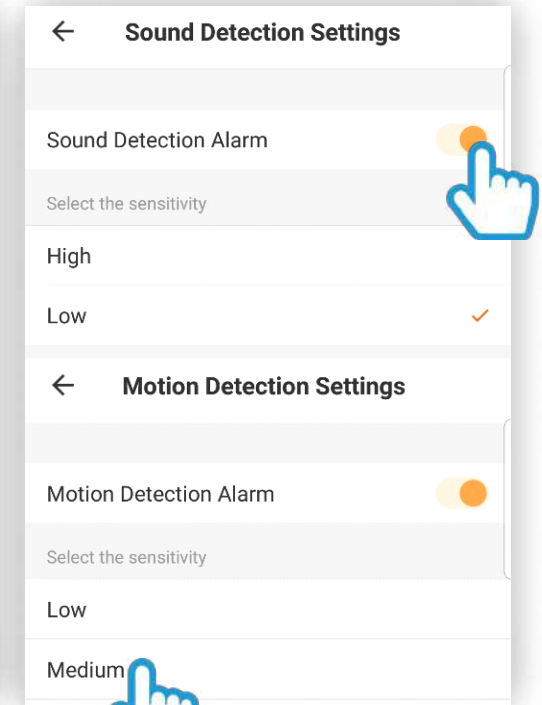

Step 2

Click on "..." to bring up the settings.

Step 3

Select Sound Detection Settings or Motion Detection Settings.

Step 4

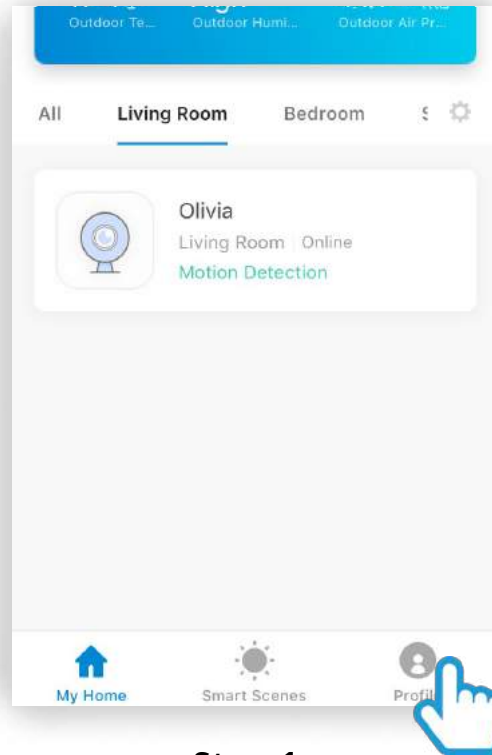

Turn the setting on and choose the sensitivity.

Not receiving alerts?

When motion is detected you should receive a notification on your phone.

If you do not receive these notification, please check the App Settings.

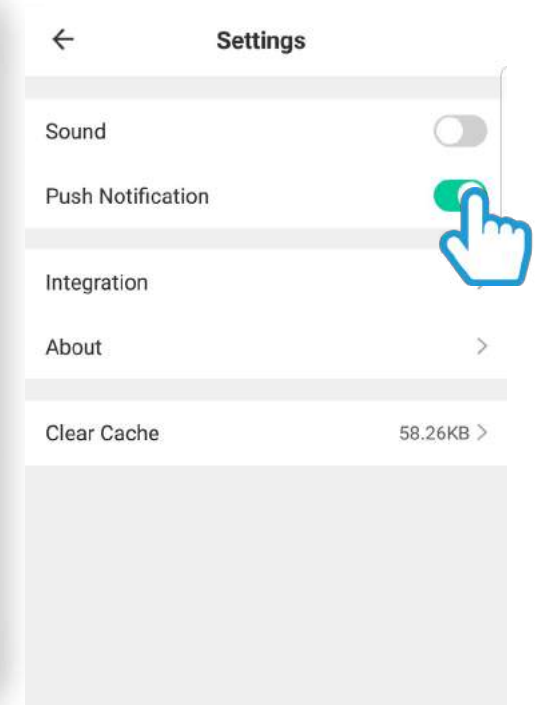

Step 1

Click on "Profile"

Step 2

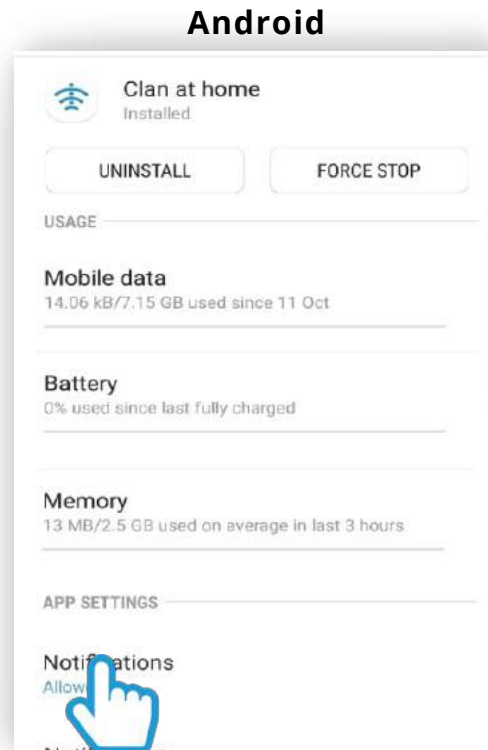

Click on "Settings".

Step 3

Ensure "Push Notifications" is turned on.

Not receiving alerts?

Step 4

Go into your mobile phone settings and check the App Settings for the Clan At Home.

Make sure that the Notifications have been turned on.

SD Card Guide

If you would like Olivia to record you will be required to insert a Micro SD card. She will support any sized Micro SD card up to 128 GB.

Micro SD Card

How many hours will it record?

16 GB
32 GB
64 GB
128 GB

Up to 120
Up to 240
Up to 480
Up to 960

*Once the memory is full,
Sophia will automatically
loop record.

Step 1

Take out the USB cable from Sophia.

Gently rotate the lens upwards to locate the micro SD card slot.

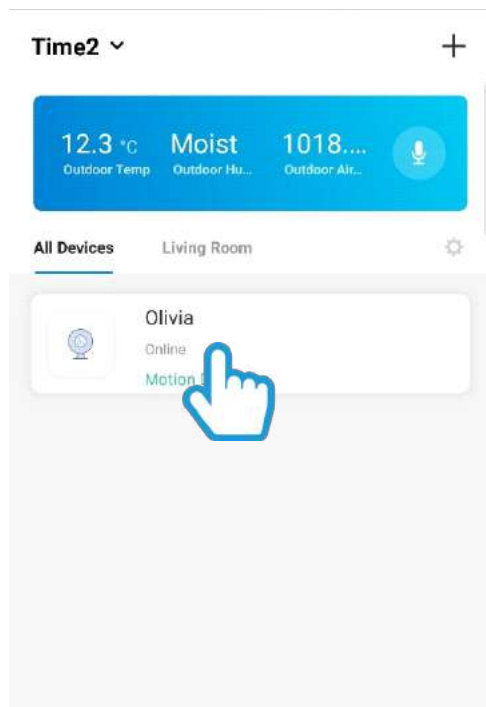

Step 2

Insert the card into the slot far enough for it to click into place.

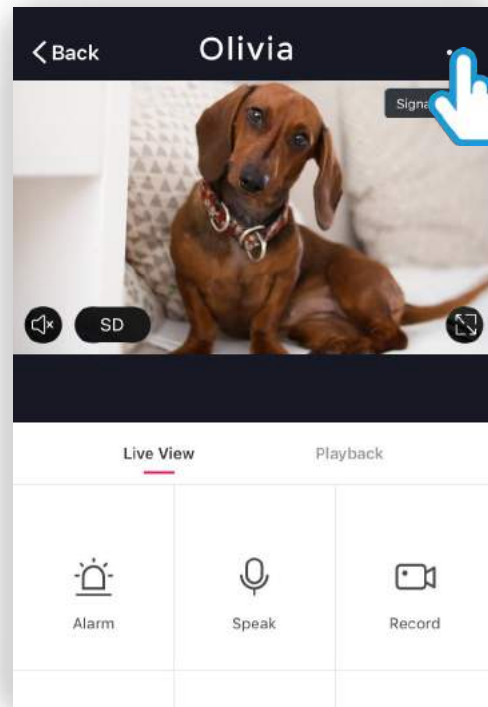

Plug the USB cable back in.

Formatting the Micro SD Card

Before Olivia can start recording you will have to format the micro SD card.

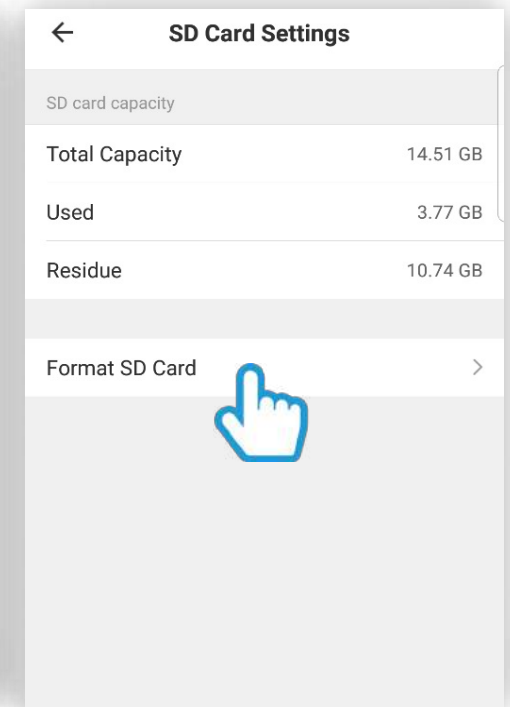

Step 1
Select Olivia

Step 2
Click on "..."
to bring up the
settings

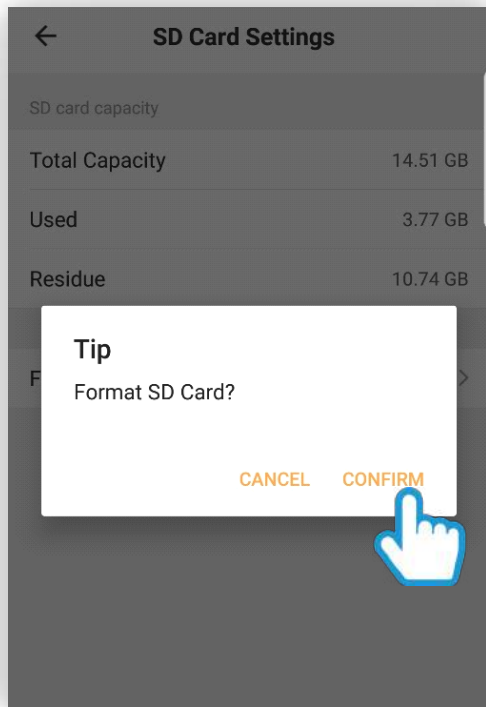

Step 3
Select SD Card Settings

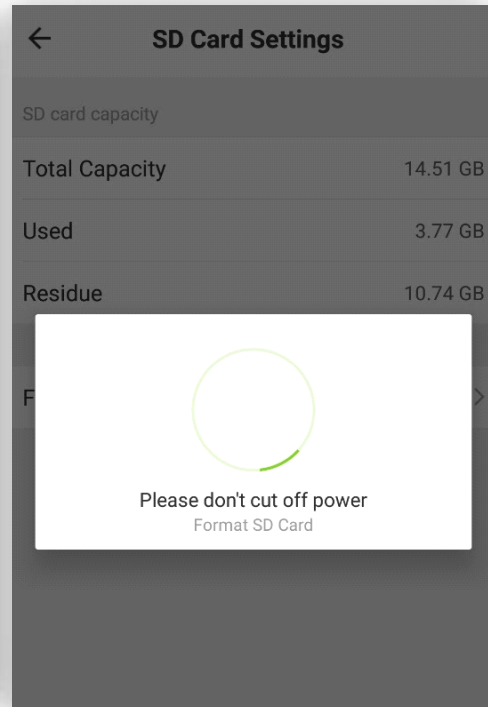

Step 4
Click Format SD Card

Formatting the Micro SD Card

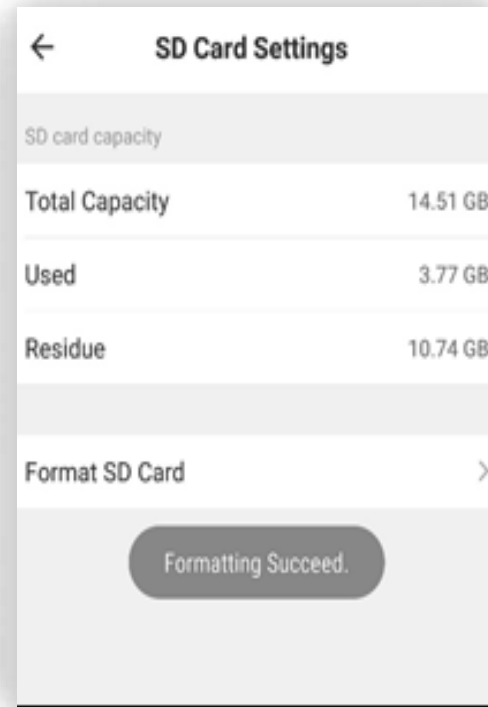

Step 4

Click Confirm

Step 5

Olivia will begin to format the Micro SD card.

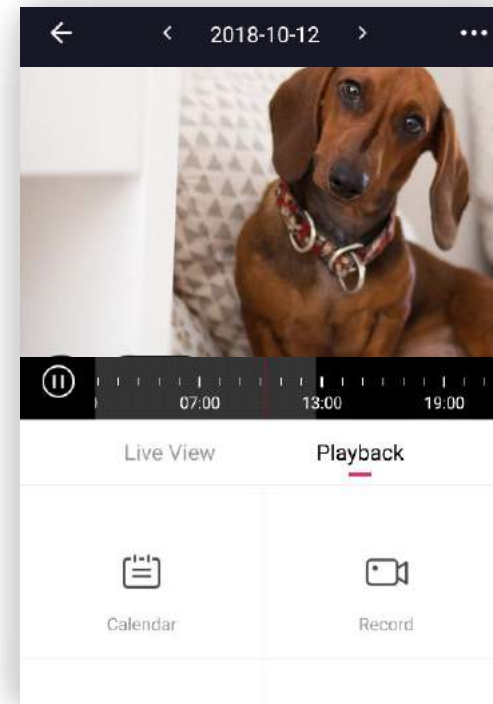

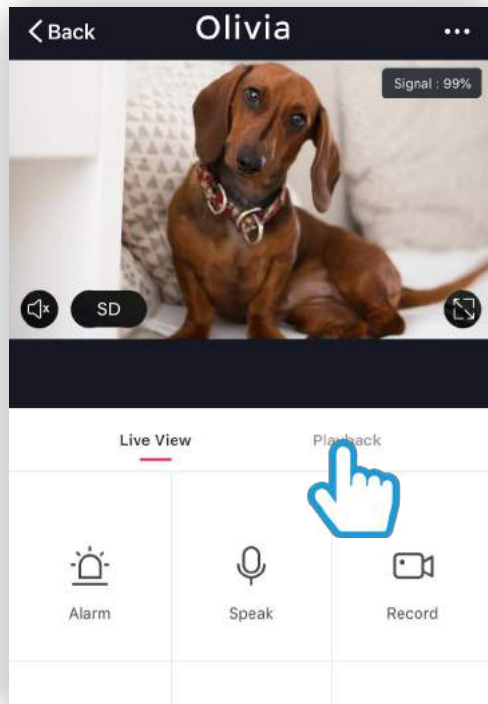

Once completed Olivia will start to record automatically.
***Please note: it will take a couple of minutes to format the card.**

See "Playback and Sharing Recorded Footage" on the next page for more information.

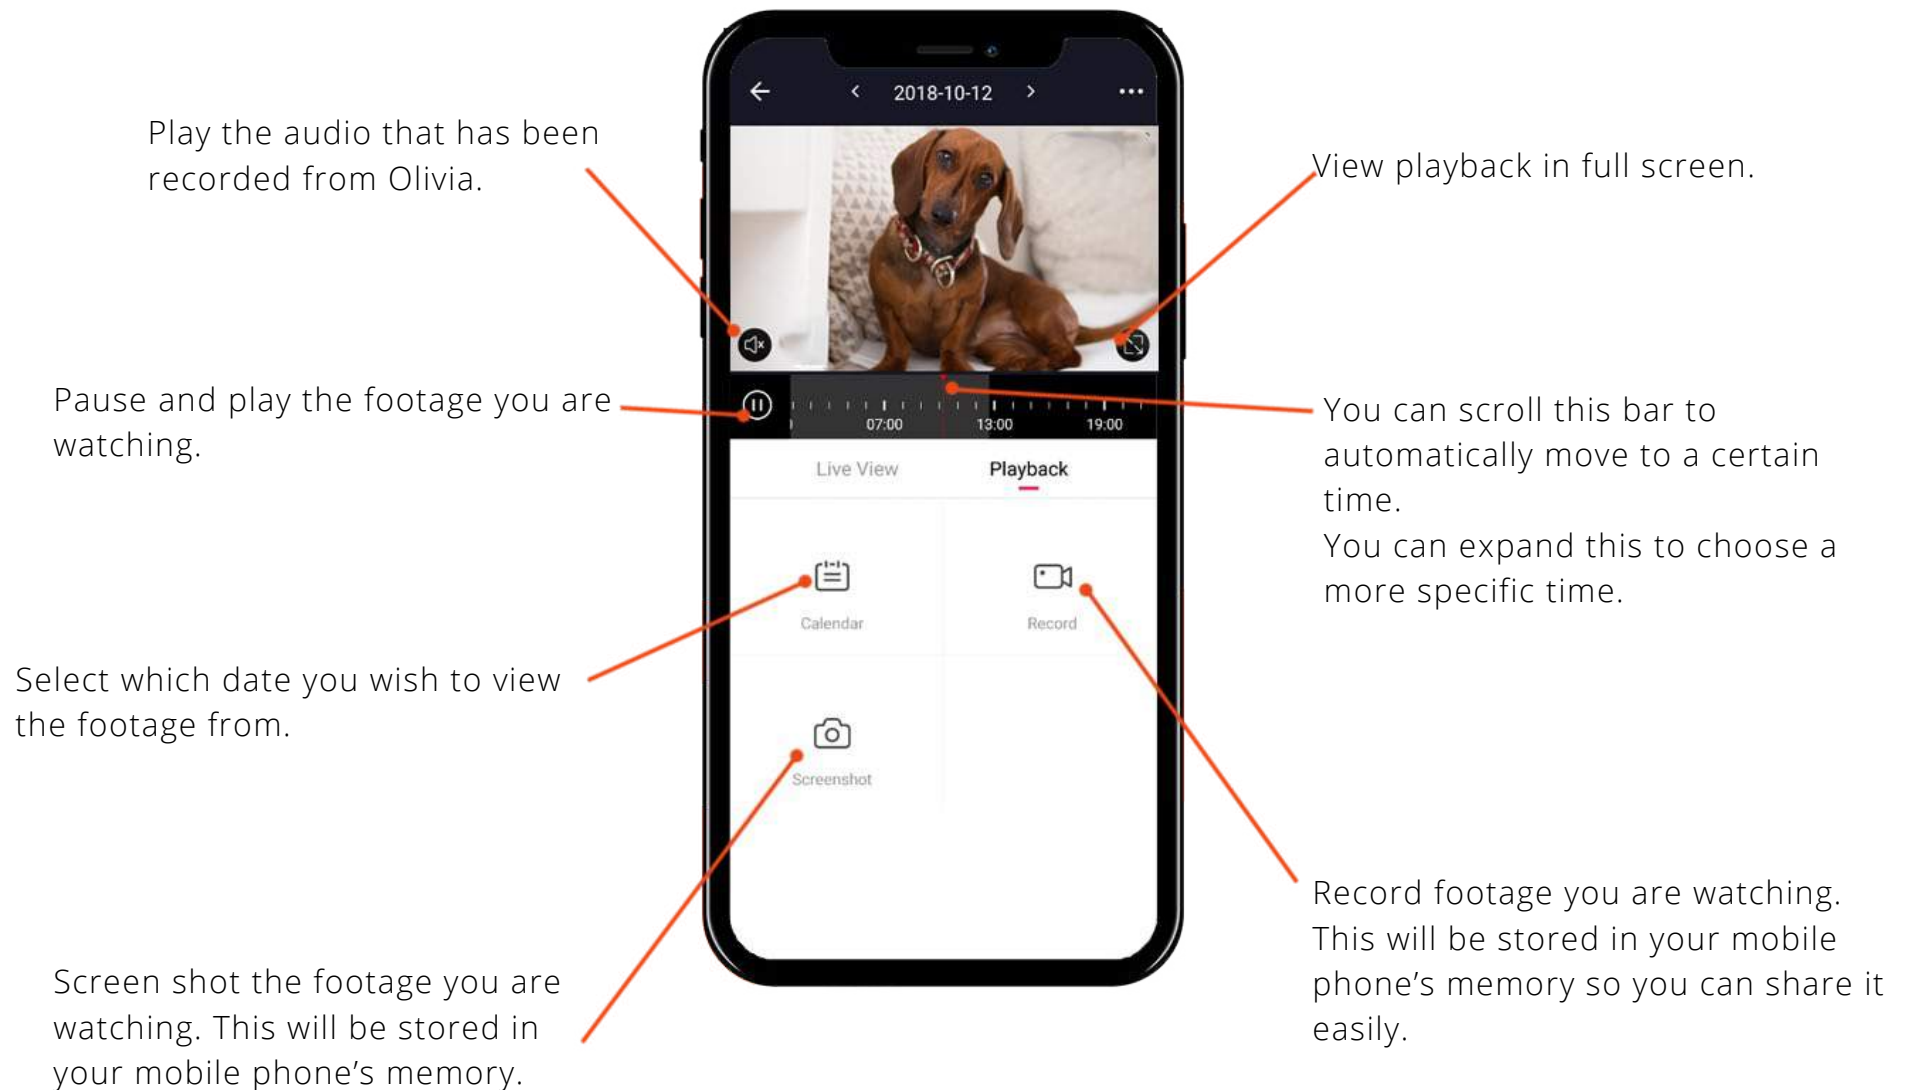

Playback and sharing recorded footage

Olivia has a feature which allows you to view any previously recorded footage. Simply click “Playback” on the camera you wish to view to bring up this feature.

Olivia will require an micro SD card.

Playback – Options explained

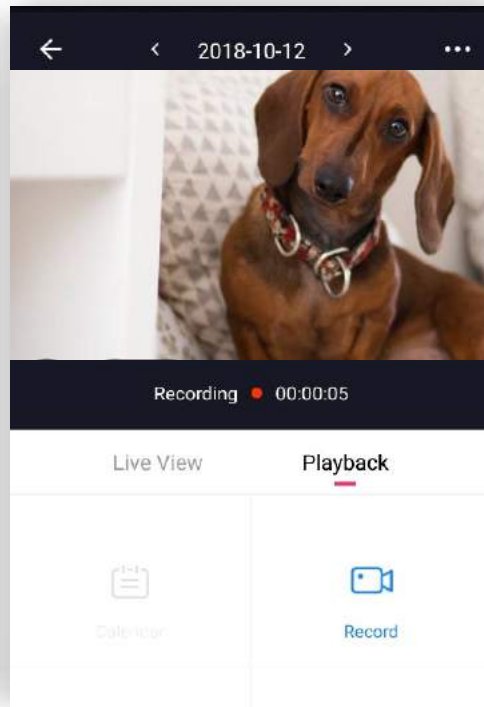

Sharing recorded footage

Step 1

First you will need to record the footage you wish to share.

Click on "Record" to start recording the footage.

Step 2

The icon will turn blue to let you know it is recording the footage.

Click again to stop recording.

Step 3

A message will appear to let you know that the video has been saved.

Step 4

This video will be saved in your mobile phone memory which can be shared.
