What's in the box

- Oscar3 WiFi Camera
- Wall Mounting Screws
- Reset Pin
- Power Adapter
- Start Up Guide

Be ready

You will need your WiFi router password. Write it down below so its handy when you need it!

Get Started

Please complete set up before mounting the camera.

Connect Oscar to the mains using the power adapter provided.

The red LED will come on once plugged in and Oscar will chime before he is ready to connect.

If you would like Oscar to record, you will be required to insert a Micro SD card. Oscar will support any sized Micro SD card up to 128 GB.

What do the flashing lights mean?

Download App

Download the "Clan at home" App on the iOS App Store or Google Play Store.

Register

Step 1

Open the app then select Register

Step 2

Enter your mobile phone number
or email address

**Please ensure you enter your
full phone number including "0"**

Step 3

Enter the verification code sent
via SMS or email

Step 4

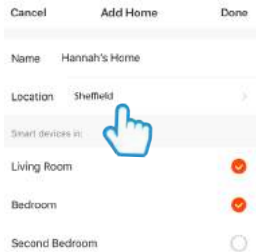

Create your password to login

Add a Home

Step 1

Select "Add Home"

Step 2

Enter a name for your home and select location

Add a Home

Step 3

Select rooms to add to your Home then press "Done" to save

Step 4

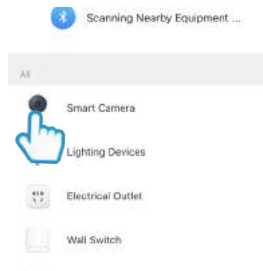

Once completed, press Done to add your Camera

Add Oscar3

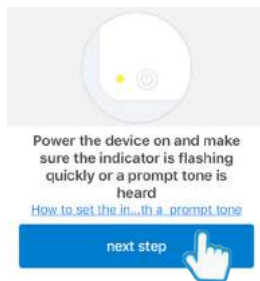

Step 1

In My Home, click the (+) icon in the top right-hand corner of the screen

Step 2

Select Smart Camera

Step 3

Make sure the device is flashing red. (If it is not flashing, see the reset instructions on page 14)

Select Next Step

Step 4

Enter your WiFi router password
Then press Confirm

Add Oscar3

Step 5

Remove the plastic film from the camera lens

Hold your phone up to Oscar

Step 6

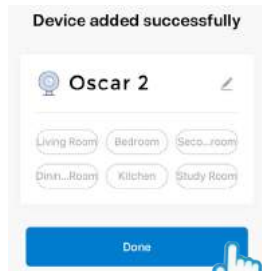

If you heard Oscar chime, press "I heard the beep"

If you don't hear the chime, reposition Oscar in front of the phone

Step 7

Oscar will then establish a connection to Clan.

Step 8

Once connected you can change Oscar's name and select the room he's in.

Press Done

Live View

- Hear what is happening around the camera
- Select the video quality (Lower quality may broadcast more smoothly)
- Full Screen
- Turn on to get instant alerts to your phone when there's movement
- Select to speak into the camera
- Record live footage onto your smartphone memory
- Save a screenshot on your smartphone memory

Playback

- Hear sound around the camera
- Full screen
- Select the time you want to view
- Save the playback camera footage onto your phone memory
- Change date of video playback
- Save a screenshot of playback video onto your phone memory

Add SD Card

If you would like Oscar to record you will be required to insert a Micro SD card. Oscar will support any sized Micro SD card up to 128 GB.

Step 1

Turn off power to camera.

Step 2

Find the Micro SD card slot on the underside of Oscar and insert the card into the slot far enough for it to click into place.

Step 3

Turn the power to camera back on.

Format SD Card

Before Oscar can start recording you will have to format the micro SD card.

Step 3

Select your camera and click on "..." to bring up the settings.

Select SD Card Settings.

Step 4

Click Format SD Card and press confirm, Oscar will begin to format the Micro SD card.

Please note: it will take a couple of minutes to format the card.

Cloud Storage (Single Camera)

If you would like Oscar to record, you will be required to inset a Micro SD card

Alternatively, you can sign up to the optional cloud storage.

The camera can be set to record continuously or once it detects movement.

You can also choose to store the recorded footage for 7,14 or 30 days.

Step 1
Click on the pencil icon

Step 2
Click on Purchase VAS

Step 3
Click Subscribe

Step 4
Choose which service you would like.
You will be then directed to make the payment.

Cloud Storage (Multiple)

Instead of paying per camera why not bundle your Cloud Storage. Please note selecting this option will only set the camera to record when it detects movement.

Step 1
Click 'ME'

Step 2
Click 'More Services'

Step 3
Click 'Cloud Storage for cameras'

18 19

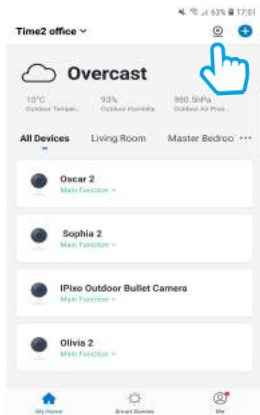

Step 4
Click 'Subscribe'

Step 5
Choose which service you would like. You will then be directed to make the payment.
